

iPlanWare PPM – product editions

Selecting the right iPlanWare PPM edition

iPlanWare PPM is the solution of choice for project based organisations, enabling them to plan, execute and deliver on their entire portfolio of projects. iPlanWare solutions are available for organisations of all sizes and industries.

The right edition for you depends on the size of your team, the features you need and level of integration you require. Whichever edition you choose, you will gain the benefits of over ten years of innovative product development.

iPlanWare Professional Edition has a seamless upgrade path to iPlanWare Enterprise Edition. Meaning you can choose the edition that meets your needs today but still have a solution that can grow with you.

iPlanWare PPM - Professional Edition

iPlanWare Professional Edition offers organisations of all sizes a comprehensive project, time and resource management solution. Professional Edition customers are typically smaller organisations or a workgroup within a bigger organisation. iPlanWare Professional Edition is a compelling solution - that packs in powerful tools without complexity.

- Project management
- Resource scheduling
- Portfolio management
- Resource management
- Time and expense tracking
- Reports and dashboards
- Project finance & billing
- API / Web Service access

iPlanWare PPM - Enterprise Edition

iPlanWare Enterprise Edition provides features larger organisations need to deliver project success and extend it across the whole enterprise. iPlanWare Enterprise Edition customers have access to advanced features including capacity planning and resource forecasting.

All the features of iPlanWare Professional Edition plus:

- Advanced portfolio management and prioritisation
- Capacity planning and resource forecasting
- What if scenario modelling
- Demand management
- Project requests, approvals and scorecards

Project management software that gets the job done

With iPlanWare, teams collaborate using an intuitive web interface, managers gain visibility into project status while executives gain insight into portfolio status.

iPlanWare needs no desktop installation and can be rolled out in days. Although easy to use, iPlanWare is not light on features. The comparison matrix below details the differences between both iPlanWare editions. If you need further guidance regarding which edition is right for you contact sales@iplanware.com.

iPlanWare PPM – product editions

About iPlanWare

Founded in 1999, iPlanWare is an innovator and leader in project and resource management solutions. Our vision is to drive project success for every organisation by providing them with the tools to utilise their key assets: people, time and expertise.

iPlanWare the choice of industry leaders

Our software solutions are used across a range of industry sectors including IT / software, consulting, manufacturing, pharmaceutical, telecommunications, insurance, building, engineering, creative, media, not for profit, health and public sector.

Based in Manchester UK, iPlanWare has a customer base ranging from SMEs to multi-nationals across Europe, North America, Middle East, Far East and Australasia.

SaaS and on-premises solutions

Available as a SaaS (Software as a Service) or on-premises installed solution and delivered via a browser, our implementations are counted in days thanks to our services model, online training and easy to use software.
