

## Selecting the right TeamWorks edition

TeamWorks PPM is the solution of choice for project based organisations, enabling them to plan, execute and deliver on their entire portfolio of projects. TeamWorks solutions are available for organisations of all sizes and industries.

The right edition for you depends on the size of your team, the features you need and level of integration you require. Whichever edition you choose, you will gain the benefits of over ten years of innovative product development.

TeamWorks Professional Edition has a seamless upgrade path to TeamWorks Enterprise Edition. Meaning you can choose the edition that meets your needs today but still have a solution that can grow with you.

## TeamWorks Professional Edition

TeamWorks Professional Edition offers organisations of all sizes a comprehensive project, time and resource management solution. Professional Edition customers are typically smaller organisations or a workgroup within a bigger organisation. TeamWorks Professional Edition is a compelling solution - that packs in powerful tools without complexity.

- Project management
- Resource scheduling
- Resource management
- Portfolio management
- Time and expense tracking
- Reports and dashboards
- Project finance
- API / Web Service access

## TeamWorks Enterprise Edition

TeamWorks Enterprise Edition provides features larger organisations need to deliver project success and extend it across the whole enterprise. TeamWorks Enterprise Edition customers have access to advanced features including capacity planning and resource forecasting.

- All the features of TeamWorks Professional Edition
- Capacity planning
- Resource forecasting

## Project management software that gets the job done

With TeamWorks, teams collaborate using an intuitive web interface, managers gain visibility into project status while executives gain insight into portfolio status.

TeamWorks needs no desktop installation and can be rolled out in days. Although easy to use, TeamWorks is not light on features. The comparison matrix below details the differences between both TeamWorks editions. If you need further guidance regarding which edition is right for you contact [sales@iplanware.com](mailto:sales@iplanware.com).
